VOL. 32, NO. 40

CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA.

FRIDAY, APRIL 1, 1927

Golden State News of Interest to All

William J. Richards, treasurer of Tuolumne county since 1898, died at his home in Sonora after an extended illness.

Bedecked in flags and holiday bunting San Luis Obispo dedicated its new United States Customs House, a short time ago.

An increase of 193 patients in state hospitals and eighty-two in the state's penal institutions during February was announced recently.

The Almaden Union School District has acquired a site for a new school to replace the present school house in Almaden, Santa Clara county.

Fire, originating from a mysterious explosion, swept through the Palace restaurant, Woodland, a short time ago doing damage estimated at \$25,000.

The climate and sunshine of Mendocino county attracted A. E. Schaffer of New York to locate at Ukiah, where he purchased a modern country home.

H. B. Hall, postal inspector, with headquarters in San Francisco, was in Porterville recently to confer with the officials of the post of the American Legion on the matter of building a new postoffice.

California will soon be rid of 73 public charges, held in various institutions of this state, who were ordered to their various homes, according to announcement made by the state department of institutions.

Another pioneer resident was claimed by death in Mrs. Canie Elizabeth Rockholt, 79, who passed away at the home of her son, Louis Rockholt, in Yuba City. Mrs. Rockholt was born in Wheeling, Va., and had resided in California for sixty-three years.

The proposed rerouting of the Redwood highway between Cloverdale and Hopland along the Russian river to eliminate the present high grades received the unanimous approval of the Sonoma county board of supervisors in resolutions adopted at their meeting held in Santa Rosa.

With the pledge of the merchants of Grass Valley that they would give their business to the line officials of the Nevada County Narrow Gauge Railroad agreed to continue the service thereon as a trial for some months to come. The road is now in the hands of a receiver, after being operated for nearly sixty years.

Prisoners working in road camps of the state are entitled to compensation under the California workmen's compensation act in case of injury, according to a decision handed down by the state supreme court. The decision was the result of a suit by a prisoner who had become blind while working on the road camps.

A definite site for the new Marysville Elks' home in Marysville to take the place of the home destroyed by fire July 28, 1925, comes nearer with the announcement by the building committee named by the Marysville lodge that they had taken an option on property, and that they will recommend to the lodge consummation of the deal.

Maps of the California highway system, enlarged photographs of notable construction projects and accomplishments of the state highway commission, materials used in pavements, and models showing construction practices will all form part of an exhibit to be placed in the California building at the Nevada Transcontinental Highways exposition to be held in late summer at Reno, Nevada.

The Lassen Lumber Company, successors of Baker and Rogers as owners of the box factory at Castella, announces that it will start up the factory on or about April 15th and make a run of from ten to eleven months. The company has purchased over 260,000 feet of lumber at a sheriff's sale in Sims for \$2,350. All this lumber will be shipped to Castella and be worked up into box shooks and finishing lumber.

The mystery of the person or persons who have been throwing rocks at passing motorists from the cemetery at Newcastles has been solved with the capture of several school boys redhanded. The youths told the probation officer that they secreted themselves in the cemetery while their parents were in church and amused themselves with the rock throwing. The oldest of the youths was 14 years of age.

Motorists of Sacramento will no longer have the thrill of following the fire engine when it travels to a blaze at a high rate of speed, according to an edict handed down by Chief of Police T. N. Koenig. Koenig states that too many accidents have been caused by motorists following fire engines, and that all traffic officers in the city have been instructed to watch violations of the speed law closely in regard to following the engines.

California Ranch News

The planting of sugar beets was started recently in the Honey Lake valley, Lassen county.

The planting of sugar beets was started recently in the Honey Lake Valley, Lassen county.

Delhi community, Merced, is planting a considerable acreage of their land to peaches and other nursery stock.

It is estimated that only about 8,000 acres will be planted to lima beans in the San Fernando valley this season.

At a recent meeting of peach growers of the Chino district 400 acres were pledged for the Chino-Ontario 1927 pool.

The first shipment of the season's wool crop is leaving the Imperial Valley and is said to amount to 22,000 pounds.

Underground streams appear to be feeding the artesian basin beneath San Jacinto valley, as is evidenced by the rising of the water level in wells.

A study of the use of irrigation water will be made by the farmers in the Standish and Janesville farm centers, Lassen county.

Two large chicken hawks were recently caught in the same spring trap at the same time by Ed Thompson, Chiles valley farmer, Napa county.

One of the indications that Madera county farmers are turning largely to poultry, is the large number of poultry houses that are being built over the county.

Kern county cattlemen forecast a \$2,000,000 season, because of the most luxuriant grass crop in thirty years, and also from the fact that an existing cattle shortage has created a heavy demand for beef.

The Exchange Orange Products factory at Ontario, is preparing to utilize the California Fruit Growers' Exchange, according to the factory manager. Four main by-products will be manufactured this season.

The first squash reported to have been shipped from the Imperial Valley this season are said to have come from the Ed Bolger ranch six miles west of Westmorland. He is reported to have shipped forty-five crates from six acres before March 1.

Two new publications of interest to farmers are Bulletin 417 of the college of agriculture, University of California, entitled Poultry Feeding, and written by W. F. Holst and W. E. Newton; and Circular 309, Fruit Tree and Orchard Judging, by W. P. Duruz.

Fifty head of dairy cattle have been feasting on the 200 acres of rye planted by G. E. LeBaron, Delhi. It was making such a phenomenal growth that, had it not been pastured off, it would have started to head out before all danger of frost was past, or the windstorms would have laid it flat in the field, making it impossible to harvest.

The agricultural department will place sheep under quarantine in certain sections of California, effective May 1st, because of the presence of scab. The order will affect Mendocino, Sonoma, San Joaquin, Stanislaus, Fresno, Merced, Madera, Tulare, Kings and Kern counties and San Clemente Island, and interstate movement of sheep from these points will be under federal regulations.

Many dollars were served growers the past season through the operation of the Agricultural Labor Bureau of the San Joaquin valley the annual report of the manager, F. P. Palomares, Fresno, indicates. The report outlines the principal needs of the valley in order that labor may be more readily obtained, and places among the first of these good housing conditions as being most attractive to the migratory workers.

Prompt action on the part of H. A. Richardson, deputy horticultural inspector stationed at Hemet, prevented the possible introduction of a new cotton pest into Riverside county recently, when he seized and destroyed a sack of cotton shipped here in a carload of household goods from Texas. The importation of cotton from Texas into California is prohibited by law. An examination of the cotton showed the presence of an unidentified larva of weevil. While the cotton acreage in Riverside county is not large, no cotton pests are wanted.

25 BANDS WILL PLAY IN FIESTA PARADE, MAY 7

FLORAL SPECTACLE WILL
BE MOST MUSICALLY
COMPLETE

"The most musically-complete floral parade in California's history of splendid parades" is the statement made by the Second Annual Fiesta de las Rosas Parade committee, planning for the great pageant parade on May 7.

Twenty-five bands have been set as the goal and already 18 have actually signed up to be present when this greatest of all parades moves down the historic Alameda.

The Islam Temple A. A. O. N. M. Shrine Band and prize-winning drill corps of San Francisco, composed of over 80 members, and considered one of the crack musical organizations of the United States is entered. The Eleventh Cavalry Mounted band stationed at Monterey and the U. S. Navy band at Goat Island have been given orders by the commanding officers to play and march in the Fiesta parade.

Stanford University band, of fifty pieces, three high school bands of San Jose, Hollister School band which made such a fine appearance last year, Olmstead's famous Mercury-Herald Juveniles of 100 members, all union bands of San Jose, and several others will march and play.

Sunnyvale Band will make its first public appearance in the parade this year. Composed of about forty members, who will be dressed in appropriate Fiesta regalia, this organization will probably make a most attractive picture.

The well-known Salvation Army Silver Cornet Band of San Francisco will be in the parade and will give two special concerts during the Fiesta Week. This band, rated as the best Salvation Army Band in United States, has promised a most interesting program of music.

P T A Tuesday

The April meeting of the P. T. A. Campbell Union grammar school, will be held in the Kindergarten room next Tuesday at 2:15 p. m.

The nominating committee will be chosen at this meeting.

Mrs. Dana Thomas of San Jose will speak on "Social Standards." First, Spiritual Training; Second, Thrift.

Mrs. Lenox is chairman of the day. It is hoped there will be a large attendance of mothers.

CAMP FIRE SPARKS

The Cherokee Camp Fire group has been making spatter-prints of leaves this week. Have you ever made spatter-prints? If you haven't, you certainly have not completed your education, for making spatter-prints teaches you perseverance a nothing else can. To make a spatter-print take a leaf or whatever you wish to print and pin it on a piece of drawing paper. Take an old tooth-brush, dip it in India ink, and rub it over a little piece of screen. Slowly it will begin to spatter-very slowly I should say. Finally after about an hour's labor it has spattered enough. Remove the leaf and see the reward of your labor, a very pretty imitation leaf.

GIRL'S LEAGUE

On April second about sixty girls will leave for Redwood City, where the girls of several counties are meeting to participate in various sports, but they are really going for the joy of meeting and playing with the other girls.

The play "Miss Oliver's Dollars" is to be given by the Girls League with Miss Johnson in charge.

Grange Whist party tonight.

BOARD SELECTS PROPOSED SITE

A mass meeting was held at the new gymnasium Friday evening at which the bond issue for a proposed new high school was discussed along lines as given before in the Press. One new phase, that of site, was presented.

The present site contains about six acres, and is, therefore, inadequate for the needs of the proposed new high school plant. The board has considered each available site. After studying the various sites that were proposed, the unanimous decision of the board was for the purchase of fifteen acres of E. R. Kennedy. This site has an east frontage of 600 feet and the price is \$24,000. Ordinary building lots in the immediate neighborhood are today selling for \$650, lots measuring 50x144, or 6 to an acre, making value per acre \$3900. When the present site is sold the law requires that sealed proposals be submitted, which are opened and recorded in a public meeting. A minimum of \$15,000 has already been guaranteed. High bids may be made after the sealed bids are opened. It is possible \$20,000 may be realized. The actual net cost of the new site will thus not exceed \$9,000 and may be materially less.

We wish to call your attention to the fact that, if the bonds do not carry, it will be necessary to levy a direct tax to make provisions of a more or less temporary nature. This tax will be equal to or greater than the bond tax, and will not solve the problem. Therefore, it will be economy for the voters to pass the bonds at this time.

WATER COMPANY PLANS NEW MAINS

The Campbell Water Co. is planning extensive improvements in their service to meet the growing demand on account of the many new homes being built in Campbell especially in the territory south of Campbell Avenue and west of south first street.

A large main will be laid from tanks of the company on south first street, to Rincon Avenue and then west on Rincon Avenue to the L. G. Highway. The cross streets, 2nd, 3rd and 4th Streets will be connected to this new main and also the new main will be tied in on the highway to the alley north of Alice Avenue and present line out Rincon Ave.

A line will also be run along the west side of the highway connecting the new main with present 4 inch main at Hagelin corner.

In addition to above many smaller improvements will be made improving the service throughout the town.

The laying of the large main on Rincon Avenue is delayed until after High School Bond Election in order to determine the size of this main, as the immediate placing of High School on Kennedy property will necessitate a much larger main than would be required to meet present demand.

Ever since the High School fire the Campbell Water Co., has felt that this territory was in need of better service and fire protection and the above improvements will amply meet the needed demand.

TAX PAYERS' MEETING

On April 4, at 8 p. m. in new school auditorium, Campbell for discussion by tax payers of Campbell Union High School district of the proposed quarter million dollar bond issue. All tax payers should be present in order to be prepared to express your sentiments clearly on Bond Election day which is called for April 6, 1927.

TELEPHONE TALK TO KIWANIS

Frank Rego was chairman at the Kiwanis luncheon Wednesday and was too busy with the hefty program to go into the tin business so fines were nil.

Hal Tuttle sang "Rose Marie" much to the pleasure of the club. Andrew Hill, member of San Jose gave a few pertinent facts on the new high school project that shed considerable light on the subject. He pointed out that Campbell Union District, one of wealthiest in the county and spending a decidedly low figure on this department of education was sadly in need of and very able to furnish a suitable high school plant. One big factor in aid of this is the fact that many students are paying tuition to help this school.

E. J. L. Pellier, publicity man of the Pacific Telephone Co., of San Jose office gave a very interesting talk on the conveyance of messages, illustrating by means of slides the various methods and stages used since early history. The latest notable advance was the telephone connections made between San Francisco and London. These messages were phoned across land and radioed across the Atlantic.

Alpha Davidson and Mary Maxson campfires served at the tables.

Ralph Hyde will be chairman next week, and Wm. D'Egelbert will be the speaker on the subject "Campbell's Opportunity in California's Prosperity."

TWENTY-ONE YEARS AGO

Last week we published a few items from the Campbell weekly visitor of the issues of March 7 and March 14, 1896.

In view of our present campaign for a school bond issue it is interesting to note that during March of that year the paper was publishing a School Bond Election notice calling for an issue of \$5500 and the people were being urged to support the project as a new school was very badly needed.

Here is an item from the issue of March 21st.

Campbell is to contribute a float to the Carnival of Roses parade. Why not construct an immense "prune camel" as a feature of the Contribution. Perhaps it might be as well, however to make it a rose camel instead.

Among other items noted were ones commenting on Chas. Sutter's new buggy and wagon paint shop; J. F. Wehmeyer's wagon shop, where several wagons were in process of construction. J. E. Morris ad for harness repairing and S. J. Gray's ad, Ladies and Gent's Shoes half-soled for 35c.

MONDAY GUEST DAY

Monday, April 4, the Country Woman's Club will entertain the neighboring clubs.

The committee in charge has made very promising arrangements and a very pleasant afternoon is anticipated.

Mrs. J. E. Morrish of San Jose will sing, pupils of Mrs. Vaudine Putman Sanders will give two or three numbers in costume, and Mr. F. H. Cutting will exhibit some of paintings, not confining the exhibit to one feature.

A social hour with refreshments will follow and the committee urges a full attendance of members and their co-operation in entertaining and welcoming the visitors Monday at 2:30.

Messrs J. B. Collins and W. L. Merrill and F. E. Howes and Wilbur Mitchell were elected Friday as trustees to the Campbell Union Grammar and High School respectively. The elections passed off quietly as in neither case was there any opposition.

NEED OF NEW HIGH SCHOOL SHOWN

Some insight into the needs of the high school may be discovered by studying the past growth of the school. At present the enrollment is 292 with an average daily attendance for the year of about 270. If the district were to build for this number only, it would be necessary to put on another building campaign a year later because the school is growing all the time. Records in the county superintendent's office show that Campbell has been the second fastest growing school in the county. Assuming that, in a growing school, it is wise to build for future needs, the question arises, "What is the estimated future growth of the high school population?" "What will the average daily attendance probably be in five years?? In ten years?" In twenty years?

Two estimates of future growth have been made. If future growth is estimated on the basis of what has actually taken place the last ten years, then we could expect an average daily attendance of 340 in five years, 415 in ten years and 565 in twenty years. On the other hand, if it is to be expected that the rate of growth for the past twenty years will give a truer picture of what will take place in the future, then we could expect 315 pupils in attendance in five years, 365 in ten years, and 470 in twenty years.

It is believed that the estimate on the ten year basis is sounder. The reasons for this belief are as follows: When the district gets a new school house, the holding power of the school will increase; that is, fewer pupils will drop out. In the second place, there is a general growth in population in the county and in all the schools of the county. There is no reason to assume that this growth will not continue. In the third place the classes moving along from the grammar schools which supply the high school with students are also growing.

Therefore to provide for these students by additions and temporary buildings, will be a continual source of expense making the tax rate equal to that necessary for the bonds.

During this time the school will not do efficient work owing to the lack of proper facilities, and in the end the taxpayers will be faced with the proposition of building a new school after having wasted a large amount of money on the old one.

Talk on Air Raids

Rev. J. H. Bennett gave a most interesting talk Sunday evening on the life and work of the English coal miners among whom he worked at various times over a period of several years.

By means of these talks Mr. Bennett hopes to create an understanding interest among his hearers for various phases of life in his native land.

Nearly all the advocates of world peace realize that the people of the various nations must learn to know each other better before real sympathy will develop. Sunday evening he will describe London during 1914-18.

Chamber Sponsored School Float

At a special meeting of the Chamber of Commerce Monday evening it was voted to give its unstinted support to the high school for a float to be entered in the Fiesta de las Rosas parade. The sum of \$100 was voted to finance the project which promises to be a pretty affair.

The Chamber accepted a place in the big show tent and No. 4 has been allocated for the Campbell exhibit. Details of the display is in the hands of the publicity and advertising committee.

"The Greatest
Tire In The
World"

All that, and then some!

When Goodyear announced "The Createst Tire in the World" we sat up and took notice. Knowing Goodyear, that seemed to us a pretty sensational statement for such a solid, long established company.

Now toat we've seen the tire, tested it, and tried in vain to find something the matter with it, we add our bit to Goodyear's statement:

It's the most wonderfully designed and built tire we have ever seen. It's everything Goodyear said, and then some!

You ought to catch up on tire news. Get the 1927 story. Come in and see just how a new specially-designed tread, and the Goodyear Suretwist casing brings a new day in balloon tire performance.

Haliwell & Jones

OPPOSITE SCHOOLS - CAMPBELL

Authorized Goodyear Service Station, rendering the help year pledges to enable you to get every last mile out of your Goodyear Tires and Tubes. More people ride on Goodyear tires than on any other kind.

PAYING YOUR "DO'S."

The majority of men and women in this community belong to some club, lodge or society, or pay dues to some organization. This is all right. The modern words are organization and cooperation, whether for purposes of religion, social welfare, boys and girls work, education, safety, fraternalism, fellowship or plain unadulterated fun and amusement.

But with our manifold duties to organized agencies, and with all of our loyalty to the special interests and purposes for which we are active and banded together, is there not one "club" we should all "belong" to and pay "dues" into? And that is the great non-organized community of Campbell. We ought to not only pay dues, but perform "do's" for our own community-at-large, both individually and through the organized agencies to which we pay money and owe allegiance for community service.

Campbell is no different in this respect than others, but the fact remains that nearly everybody is organized here by the community. There are many things that count generally for the advancement and progress of Campbell. We all owe homage and kinship to the fellow who doesn't "belong." For all who live and work in this community do "belong," though some do not pay "dues."

Let us continue to be good "members," not only of our respective organizations, but of this community we all love. Let's pay some dues and put some "do's" into the neighborhood. Independent of ritual or form, we owe the dues of loyalty, of charity, of neighborliness, and the support of home business. We can not expect to prosper materially, nor advance as moral factors in the building of this great commonwealth, unless we back up the community from which we receive our livelihood and the emoluments due us from society in the aggregate.

Paying "do's" to Campbell gives one a "good standing" in the society of citizenship. Co-operation in community effort is the best "membership committee" to build a greater Campbell. The payment of such dues brings material and moral dividends, and such stock never goes below par.

PENS AND ORATIONS

According to good authority, Thomas Jefferson, whose birthday is celebrated April 13, seldom if ever "made a speech," in the common meaning of the term. But like Washington, his pen was powerful. Jefferson said that he disliked harangue debate as he found it distasteful and ineffective; that men are not "convinced by argument, but only by reflection, through reading or unprovocative conversation. "He hated "morbid rage of debate."

After all, it is by calm reflection—by giving people something to think about in the quiet recesses of contemplation and meditation—that people are persuaded and convinced. There is some force in Jefferson's logic. If Washington and Jefferson could get their names into history it must have been by their pen and personality rather than by their great force of oratory. These facts tend to prove that the pen is more powerful than the oration; at least they form a striking contrast to the efforts of some of our glib-tongued statesmen of the present. The tongue may be silver, but the pen is gold.

The Jews claim to be a persecuted race, but we notice that they generally cash in on the payment of damages.

Two American owned newspapers have been closed in Hankow, and this might lead to more serious consequences than the Chinese expected in the drastic action. Whenever you close the mouthpiece of the people as represented by the newspaper, you've started something.

CONGL CHURCH

Next Sunday morning at 11 a. m., the subject will be "My Beloved's Garden." Children's talk "Jeggy Wugg." Children are invited to the Sunday School at 10 a. m. and they leave Church after the children's talk. Special nursery arrangements for younger children during worship. Next Sunday at 12 p. m. the Communion services will be celebrated. At 6:30 C. E. Meeting.

At 7:30 Talk by Rev. J. H. Bennett on "London during 1914-1918 and other glimpses."

No one amounts to much in this world until he or she has laughed, cried, loved, been loved, prayed, been prayed for, borne burdens physically, mentally, soulfully, and suffered.

Grange Whist party tonight.

Decision to extend the citrus white fly quarantine area to include all of the city of Sacramento and parts of Sacramento county immediately adjacent, as well as to place an embargo upon several plants not hitherto affected, was announced by the state department of agriculture.

After harvesting their first year's winter commercial vegetable crop this season, the Vista growers have announced their intentions of planting three times the acreage to these high revenue producing crops this year.

The Tractor on the California Farms is the title of a new bulletin prepared by Professor L. J. Fletcher of the Division of Agricultural Engineering, University of California, and C. D. Kinsman, agricultural engineer, United States department of agriculture. This bulletin Number 415 will be available about January 1 and may be secured without charge by writing to the Agricultural Experiment Station, Berkeley, Calif.

OUR PAPER MONEY

The engraving processes and the printing of paper money of the United States are surrounded by every precaution. No plate is completed by any one engraver, and secret symbols establish a record of every person that worked on their production.

Everyone is ambitious to possess a share of Uncle Sam's paper money. A savings account in the American Trust Company, earning four per cent interest, compounded semi-annually, is the best way to accomplish the purpose.

Town Tales Tersely Told

Grange Whist Party tonight.

Miss Joyce Robson is home from Coalinga for the week enjoying the spring vacation.

Mr. and Mrs. Geo. Schuyler were over from Pacific Grove for the week-end visiting relatives and friends.

L. Genasci celebrated his fifty-ninth birthday last Friday. He couldn't very well conceal the truth because his wife "blazoned" the facts with cake and candles.

Mrs. S. R. Tuttle who spent several weeks visiting Michigan and sight seeing on the trip home is again in Campbell and will open her Cafeteria today for dinner at 11:30.

B. F. Cogswell, who owned the Cambrian Service Station and store recently sold his business and attractive home adjoining to Mr. Rene De Boere, and has moved to Berkeley.

Mrs. John Cooper returned to her home at Hanford, Sunday, after spending several weeks here at the T. A. Cutting home where she assisted Mrs. Cutting in the care of her invalid mother.

Mrs. C. E. Hanger has gone to Stockton to spend a week with her niece, Miss Olive Hanger, who will appear in recital during her visit. Miss Olive will accompany her upon her return to spend her spring vacation.

Through the removal of the Clancy Ford shop from here, Campbell has lost several families during the past week and some others have gone to towns where asparagus and spinach canning are in progress.

Mrs. Herold Morton entertained a few friends Wednesday afternoon at a bridge tea at her attractive home on East Campbell Avenue. A dainty lunch appointed on the spring and Easter motives was served following the playing, at which Mrs. W. H. Stray won high score and Miss Mary Rodeck the consolation.

Grange Whist party tonight.

QUARANTINE LAW

Dr. Merrill gave an instructive talk at the high school Monday concerning the keeping of quarantine and the value of vaccination. Persons breaking quarantine should realize the danger to which they are subjecting those with whom they come in contact. A person having a light case of scarlet fever may transmit it to another with the result that the second person has a severe case. The penalty for breaking quarantine is a jail sentence.

There are several cases of smallpox, those not vaccinated. It is in this vicinity. If there are will not be allowed to come to school until they are vaccinated. During the World War the efficacy of vaccination was proved.

LONE SCOUTS ORGANIZE

The Three Lone Scout Tribes of Campbell have united to form a Wigwam. Each tribe meets separately once a week, and once a month they come together in a combined meeting and rally which brings the Tribes together and creates a greater spirit of fellowship.

Willard Loughlin has been elected Chief of the Wigwam, and Mr. T. A. Cutting has consented to act as adviser or Medicine Man, so that we consider our organization well led. On Saturday evening, April 2nd, the second Wigwam meeting will be held. One of the Tribes will present entertainment features, which help to make the meeting a success. Visitors are welcome at our meetings.

Last Saturday, March 26th, the Trailblazer Tribe hiked to the top of the mountains above Saratoga. These hikes, which all the Tribes enjoy, are very interesting and help us to know the region around us. More hikes are planned for the future.

Walter H. Stray is a candidate for re-election as a fire commissioner of this district. Walt, in the words of townspeople and co-workers has made a most efficient commissioner and because of his knowledge of the insurance business and fire risks is in a position to be of considerable value and assistance to the commission in the future. Walt should be re-elected.

BEAUTY CONSERVATION

There is a plan on foot, in Santa Clara County, to buy some of the wild spots of our valley, and to preserve them forever, as parks, where our children, and our children's children, may enjoy life, and learn to love wild flowers. People in the vicinity of Campbell have long loved the rolling hill near Vasona Junction, appropriately named "Allbright's Hill." Would they not be glad to have its loveliness kept the same, for future Campbell folks?

Every person has luxuriated on the soft green grass of some uncivilized spot, and has contemplated the loneliness and still beauty of his surroundings. He has listened to the carols of the meadow lark, and the soft whisperings of the breezes among the trees. He has watched the sunlight peeping through the dense foliage, and has loved the picture of light and shadow that it made. He has laughed with little children, as they wandered thru that wilderness, gleefully hunting flowers.

Every person has also come back to some treasured nook of his childhood, to enjoy once more the bird songs and wind songs that made his youth glad. And how sad and true it is, that often than not, he is disappointed! He finds only multitudes of busy streets where he once played at Indian. A tall house stands by the very tree where his sister once wove flower chains. He would give everything to have the scene of his childhood return again.

Here in Campbell, people have enjoyed the loveliness of Allbright's Hill, at every spring time. Babies have learned to run there, little folks have learned the flowers, youth has picnicked there, and adults have rested from the weariness of their work.

Allbright's Hill has been an unadulterated joy. But it is escaping. It, too, is growing modern and civilized. Might not the people of Santa Clara County buy it? Might not its sunny acres furnish always joy to the lives of them all? Do we not all want it, for a park, a little bit of unspoiled wildness, where our children may discover the Beautiful?

Mrs. Mary Lanphear and Mrs. Laura McKinsey left yesterday for a visit at San Gabriel and Pasadena.

Mrs. B. Critchlow, Mrs. C. S. Knight, Mrs. Mae Bradley, Mrs. A. B. Manley and Mrs. Southwick of San Jose paid Mrs. C. H. Whitman a surprise visit Wednesday afternoon, in honor of the anniversary of her natal day. They brought gifts and material for a planning lunch. The event was much enjoyed by all present.

Foremost in South San Francisco's program for 1927, as announced by President E. P. Kauffmann of the community's chamber of commerce, is intensive co-operation in the immediate widening of the Bay Shore highway through South San Francisco, not alone to permit development of that community's business district, but also "more adequately to serve San Francisco's Municipal airport, which is located on the Bay Shore highway adjoining the city limits of South San Francisco."

Nightwatchman S. H. Goodin of Woodland, computes that he has ridden the streets of Woodland in his car while on duty seven miles nightly for ten years, without vacation, or a total of 25,550 miles, enough to take him around the globe with a few hundred miles left the second lap of a similar journey. This is not all—he has traveled by foot four miles nightly for the same period, a total of 14,600 miles, or several times across the United States, a grand total of 40,150 miles.

The first services under the auspices of the El Dorado County Federated Church, the union for work throughout El Dorado county of two pioneer religious institutions which come down from the dawn of the gold days in California, are expected to be held at Placerville the first Sunday in April.

Lawrence Luther, 3½-year-old son of Rev. and Mrs. Edgar B. Luther, Woodland, is growing more peppy daily with the best part of a safety pin in his stomach. It was learned that a few nights ago the lad started to examine a large sized safety pin, with the result that he swallowed the large end, the point being broken off. His cries while the pin was passing down his throat, attracted the fond parents, who rushed him to a local sanitarium. The lad seemed to be suffering very little. He was placed on a diet. There have been no evil results so far.

WANTED: To hear from owner of land for sale. D. M. Leight, Alzada, Mont. 4x.

TOTS IN CONCERT

The little Misses Halamick charmed their audience at the concert here last week, at the school auditorium. So pleased were their auditors that many expressions for a repetition were heard. The program follows:

Introducing Miss Jeanne—8 years-old, "The Baby Nightingale" in Love Sends a Gift of Roses.....Openshaw
Cherie Je T'Aime.....Goodman
Presenting Miss Joan—9-year-old violinist, the "Miracle Child" in native Hungarian dress.
Scene de Czardas—Hejre.....Kati
Sousenir.....Jene Hubay
MISS JEANNE—
Thou art so like a Flower.....Drdla

Rosary.....Chadwick
MISS JOAN
Mazurka-Opus 26.....Zarzycki
Liebesfreud.....Kreisler
Miss Jeanne—in overall novelties and comedy.
When Mother Wields the Shingle
Tennessee Mountain Sketch
April Fool—Pig Nose—Selected
Big Brown Bear.....Manna-Zucca

INTERMISSION

MISS JOAN
Capriccio Valse Op. 7.....Wienawski
Canzonetta.....d' Ambrosio
MISS JEANNE
Berceuse from opera "Jocelyn".....Godard
My Heart at thy sweet Voice.....Saint-Saens
from opera "Samson et Dalila"
JEAN & JOAN—ensembles—
Waters of the Minnetonka.....Lieurance
Indian Love Call, from....."Rosemarie."

MISS JOAN
Ave Marie.....Schubert—Wilhelmj
Traumerie.....Schumann
Jeanne & Joan—ensembles—
Sketches from "The Student Prince at Heidelberg."
"Deep in My Heart"....."Serenade"
Finale—Largo from "New World Symphony."
"Going Home".....Dvorak

If dairymen do not feed alfalfa or other feeds that flavor milk within the five-hour period before milking time, there will be no flavor of the feed in the milk. This conclusion has been reached at the university farm by Dr. C. L. Roadhouse of the dairy industry division, and professor W. M. Regan and S. W. Mead of the animal husbandry division, University of California. Alfalfa in the form of hay, pasturage or green feed, produced a noticeable flavor in milk when fed within the five-hour period before milking, but the pasturage or fresh alfalfa produced the most pronounced flavors. During the first week the cows used in the test were placed on alfalfa pasturage, and the flavor was objectionable from the consumer's standpoint; but after that time only an experienced judge was able to detect the alfalfa flavor. Other feeds mixed with alfalfa did not modify the flavor produced by the alfalfa.

A new freak in the fowl kingdom is owned by Mrs. John Solari of Mokelumne. It is a cross between a duck and a chicken, having a duck's body and a chicken's head and feet. It stands erect like a penguin and waddles like a duck when it walks. Some difficulty is experienced in feeding the hybrid as it cannot eat like a chicken, but must have its food raised up so it can get at it. Recently it has started to crow like a rooster. Mrs. Solari says she purchased a setting of eggs from a rancher who raises chickens and ducks and out of the hatching she was rewarded with two of the crosses. The first one was killed. The present freak is two months old.

Prospects for Placer county fruits during the 1927 season are better following reports of freeing temperature in states south of the Ohio river, according to J. E. Bergholdt, well known Newcastle and Auburn shipper. He has received reports stating that damage to peaches, plums and pears has apparently been very heavy in Georgia, and very considerable in other gulf and South Atlantic states that compete with fruit from superior California during the summer months. Bergholdt points out that this region will be subject to frosts until April 15th that may do serious local damage.

A tomato may look just like its neighbors, but to the canners and seedsmen of the state a tomato that ranks high must have certain characteristics, just like blooded livestock. For instance, Dr. J. T. Rosa of the truck crops division of the college of agriculture, Davis, says that the best type of tomato must be smooth, both at the blossom and stem ends; it must be a dark, rich red; it must be firm, with a large percent of solid flesh and a minimum of seeds. At least this is the type the canners and seedsmen of California

MELONES POWER HOUSE

A co-operative agreement between the farmers of the Oakdale and South San Joaquin Irrigation Districts and the Pacific Gas and Electric Company, made possible the building of this 36,000 horsepower plant. The farmers will receive pay for their stored water passing through the plant, at a rate sufficient to pay off a \$2,200,000.00 bond issue and interest in forty years.

California has more miles of electric transmission lines than any other State—32,863 miles. The three States ranking next in order are: New York, 17,567; Pennsylvania, 9,101; Illinois, 7,975.

CONVINCING EVIDENCE of the rapid growth of northern California is reflected in the number of new consumers added to the lines of the Pacific Gas and Electric Company, which averages about 2500 per month.

Seven new ferryboats on San Francisco Bay are of the new electrically-driven type. Each of five of them has propulsion motors aboard totaling 1,900 horsepower. The driving mechanism of the others is slightly heavier. Oil engines generate electric energy on the boats to supply the motors.

THE STATE OF CALIFORNIA LEADS the Union in Hydro-Electric Development and is the largest consumer of electricity per capita anywhere in the world.

THE HIGHEST STEEL TOWER in the world for carrying electric transmission lines is located near Rio Vista, California. It is 459 feet high.

INDUSTRY IS 78.8 PER CENT ELECTRIFIED IN CALIFORNIA.

Summons

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA
IN AND FOR THE COUNTY OF SANTA CLARA 34460

DORA HOEFFT HUGEE, Plaintiff vs. THEODORE W. HUGEE, Defendant.

Action brought in the Superior Court of the State of California in and for the County of Santa Clara, and the Complaint filed in the office of the Clerk of said County of Santa Clara.

THE PEOPLE OF THE STATE OF CALIFORNIA send greetings to THEODORE W. HUGEE, Defendant.

You are hereby directed to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this Summons, if served within this County, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the Complaint as arising upon contract, or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 22nd day of March, A. D. 1927.

(Seal) HENRY A. PEISTER, Clerk
By R. K. O'Neil, Deputy Clerk.
F. V. CAMPBELL, Atty.

Excavation work for the new Y. M. C. A. building being erected at Redlands is complete. The swimming pool, of regulation size, 40x60 feet has been dug and also a deep basement where the boilers, filters and the chlorine tanks are to be placed. A small storage basement has been prepared also. The ground work for the gymnasium building with concrete posts for support for the floor is also done.

For the first time in fifteen years the reservoir of the Suisun water system is full and running over with water. The water from the Rush ranch has all been cut out and also the 8-inch gate below the dam is wide open. The seepage water from the spillway is all that the mains are carrying at the present time and the water is running over at the distributing reservoir.

NOTICE

High School Bond Election Notice

Notice is hereby given to the electors of Campbell Union High School District, in the County of Santa Clara, and State of California, that, in accordance with the provisions of the Political Code of the State of California, as set forth in Section 1745 of said Code, an election will be held on the sixth day of April, A. D. 1927, at the High School Building in said Campbell Union High School District, at which time will be submitted to the electors of said Union High School District as one single proposition the question of issuing the bonds of the District and selling the same, for the purpose of raising money for purchasing a high school lot, purchasing and building a high school building, making alterations and additions to high school building or buildings, for insuring high school buildings, for supplying said high school building with furniture and necessary apparatus and for improving the grounds.

The polls will be opened and the election held at the said high school building in said Campbell Union High School District, on the sixth day of April, 1927, and the polls will be open from eight o'clock a. m. of said day until eight o'clock p. m. of said day. W. K. Nichols will act as inspector, and Isabel Anderson and Alda F. Blaine will act as Judges of said election to conduct the same.

The amount of bonds to be issued is \$250,000.00 of the denomination of \$1000.00 each, and to bear interest at the rate of five per cent per annum, payable semi-annually.

Said bonds are to be numbered consecutively one to 250, inclusive, and are to run, mature and be payable as follows, to-wit:

Bonds Nos. 1 to 5 inclusive, one year from date of issuance;

Bonds Nos. 6 to 10 inclusive, two years from date of issuance;

Bonds Nos. 11 to 15 inclusive, three years from date of issuance;

Bonds Nos. 16 to 20 inclusive, four years from date of issuance;

Bonds Nos. 21 to 26 inclusive, five years from date of issuance;

Bonds Nos. 27 to 32 inclusive, six years from date of issuance;

Bonds Nos. 33 to 38 inclusive, seven years from date of issuance;

Bonds Nos. 39 to 44 inclusive, eight years from date of issuance;

Bonds Nos. 45 to 51 inclusive, nine years from date of issuance;

Bonds Nos. 52 to 58 inclusive, ten years from date of issuance;

Bonds Nos. 59 to 65 inclusive, eleven years from date of issuance;

Bonds Nos. 66 to 72 inclusive, twelve years from date of issuance;

Bonds Nos. 73 to 80 inclusive, thirteen years from date of issuance;

Bonds Nos. 81 to 88 inclusive, fourteen years from date of issuance;

Bonds Nos. 89 to 96 inclusive, fifteen years from date of issuance;

Bonds Nos. 97 to 104 inclusive, sixteen years from date of issuance;

Bonds Nos. 105 to 113 inclusive, seventeen years from date of issuance;

Bonds Nos. 114 to 122 inclusive, eighteen years from date of issuance;

Bonds Nos. 123 to 131 inclusive, nineteen years from date of issuance;

Bonds Nos. 132 to 140 inclusive, twenty years from date of issuance;

Bonds Nos. 141 to 150 inclusive, twenty-one years from date of issuance;

Bonds Nos. 151 to 160 inclusive, twenty-two years from date of issuance;

Bonds Nos. 161 to 170 inclusive, twenty-three years from date of issuance;

Bonds Nos. 171 to 180 inclusive, twenty-four years from date of issuance;

Bonds Nos. 181 to 190 inclusive, twenty-five years from date of issuance;

Bonds Nos. 191 to 202 inclusive, twenty-six years from date of issuance;

Bonds Nos. 203 to 214 inclusive, twenty-seven years from date of issuance;

Bonds Nos. 215 to 226 inclusive, twenty-eight years from date of issuance;

Bonds Nos. 227 to 238 inclusive, twenty-nine years from date of issuance;

Bonds Nos. 239 to 250 inclusive, thirty years from date of issuance.

Said election will be held in conformity with the provisions of the Political Code of California governing such elections.

Dated: March 9th, 1927.

Michigan now has 21,000 miles of improved roads, according to a report received by the California State Automobile Association.

GOOD NEWS

The Press has just received the information that the Valley Water Conservation Association is in a fair way to purchase the two old ditch systems some two miles south of Campbell, which have so many years lain idle. One is the upper Page ditch and the other the Santa Clara Valley Water Co. ditch more commonly known as the Duncan ditch. Early in December negotiations for buying the Page ditch began, the plan of the Association being to co-operate with the Santa Clara Valley Water Co. so as to use their headgate. But later in the winter the Water Company concluded they would rather sell their ditch to the Association. The by-laws of the Association state that the Directors shall "incur no indebtedness greater than the amount of funds actually on hand and available for the payment thereof." Buying two ditches instead of one was something of a bombshell to the Association and it required much planning to make it possible to raise the cash before the sellers would be tired of waiting.

Mr. Geo. W. Page set the price of his ditch property at \$3500 in the option which he gave last December. But late in February he said he would donate \$1500 of that to the Association for the cause of water conservation, thus making the ditch cost the Association \$2000. This option is now extended to May first next by which time it is hoped that the necessary cash may be secured to purchase it.

The cause of water conservation is likewise the beneficiary in the case of the Santa Clara Valley Water Co. for they have deducted \$1000 from their original asking price of \$2750 on account of the worthiness of the project. It will be remembered that this ditch lies above the Page ditch and its headgate is in the better location for taking water from Los Gatos creek. The ditch also has a good culvert under the Los Gatos highway.

The Valley Water Conservation Association plans to use the Page ditch as a means to percolate water into the underground gravel strata and thus prevent, if possible, the drying up of any more wells. When these ditches were being used for irrigation it was found that the larger part of the water turned in at Los Gatos creek seeped through the bottom of the ditch before it reached the westerly end where the water was desired. The soil is therefore of such gravelly nature as to take lots of water and in seasons like the present one a great deal of water can be stored in the gravels underneath. If the ditches could have been in operation this winter at least 5000 acre feet of water could have been sent down to help all the wells in the section.

The Association is out to raise \$4000 before May first so that it may secure control of the two ditch systems and put them into shape for running water next season. It may not be out of place to say that the Association Directors at their monthly meeting, March 14, declared their desire to purchase and put to work these two ditches and also to erect two permanent dams in the Guadalupe creek. The estimate of the cost of the two projects is \$16,000. While the Directors will try to secure \$4000 at once the remainder of the total may be left to a later date for canvass.

The value to Campbell and vicinity of having water run again in the Page and Duncan ditches under such auspices as this association can not be estimated for it will mean the rejuvenation of hundreds of acres of land now in serious jeopardy and reduce the cost of water to hundreds of other acres. Since Campbell is to receive such benefits, it would appear eminently proper that Campbell should contribute liberally to the purchase and upkeep of these ditches.

W. J. Conway called a meeting of the Indians residing in the Indian village, at Chico, recently to consider the bill before the court of claims asking compensation for lands held by Indians when California was admitted to the Union and ceded to the United States under treaties which were never ratified by the senate.

Hog sales in four San Joaquin valley cities, conducted by auction, realized \$21,567. Ninety consignors were represented and 1,019 hogs sold. Hanford sales brought \$5,438; Visalia, \$4,709; Tulare, \$9,719, and Fresno, \$1,700.

CHURCH NOTICE

Odd Fellows Hall, Campbell.
Old Time Gospel services every Saturday at 8 p. m. Branch of Upper Room Mission, Fourth and San Antonio Streets, San Jose. Evangelist Mae E. Foey will speak Saturday, April 2nd at 8 p. m. A hearty welcome is extended to all. Come.

Some 100 tons of the 1925 olive pick, which have been stored in Visalia tanks, are being moved to the Sylmar Olive plant for curing and canning. It is announced by the California Olive Growers, Inc., at Visalia. Officials of the company stated they held the olives in the Visalia tanks due to the market condition, and that the fruit kept in fine condition. The fruit held in the co-operative tanks was picked in 1925, according to the superintendent and was put into brine. The fruit is said to be in high grade condition and will be cured and canned.

Adding to its already extensive holdings in the Delano district, the California Grape Products company has purchased 1,280 acres which it will plant to vines. Planting of the company this spring will total 1,400 acres, bringing total acreage in grapes to more than 2600.

RECORD CROWDS ARE EXPECTED THIS WEEK-END

VALLESINGERS AND SYMPHONY ORCHESTRA ON PROGRAM

The 29th Annual Santa Clara County Blossom Festival will be held at Saratoga April 2 according to the decision reached at a meeting of the Saratoga people held in the Chamber of Commerce last Monday evening.

At 2:30 p. m. on Saturday, April 2, the High Class musical and dance program will be presented. The Sunrise Service will be held on the morning of April 3, and the Los Gatos Municipal Band will offer a concert free of charge at the Festival grounds, Saratoga, at 2:30 Sunday afternoon.

The reason for change of dates has been due to the slowness of nature in maturing of her blossoms and it is hoped that the Valley's visitors this year will be amply repaid with millions of beautiful blossoms fully burst.
